

Dr. Keesha

Mission Statement

The mission of Dr. Keesha is to venture beyond mind/body/spirit medicine into transformative wellness.

We are here to build the community we wish to live in by providing the very best care in health, education, and integrative medicine.

We draw upon the timeless wisdom of the mystics, the ancient science of Ayurveda and the best of modern science for empowering our clients and ourselves to live a life in balance.

We know that true healing happens on a soul level and then the cells catch up. This is Mystic Medicine.

Our company provides a space for continuing education, community support, inward journeying, and spiritual renewal.

Wherever you are on your path, we encourage you to access your own wisdom... leading to greater self-awareness and lasting healing.

Dr. Keesha
